Staff Feedback - Summary Sheet

### Port Townsend Staff Survey Summary - Draft-In-Progress

### Strengths - Cont'd

Themes that received between 35-45% ratings included:

- Improvement of student attendance because family vacations/appointments can shift to breaks.
- The possibility of enrichment, intervention, and credit recovery during intersessions.
- Volunteered comments noted a perception that a modified calendar with scheduled intersessions will help vulnerable students.

### Challenges

High-rated concerns focused on:

- The potential lack of recovery time and summer activity conflicts, which could have cultural
  impacts for students and staff if a shorter summer break was instituted.
- The lack of childcare.

Mid-rated challenges included:

- Economic impacts to students, staff, and community if summer work is curtailed with a shorter summer
- Impacts to support services and facilities schedules
- Transportation

Lower-rated concern was expressed around:

- Program Alignment, including the preparation for Advanced Placement (AP)
- SPED and the need to establish schedules and routines, as well as burnout for staff in those roles

### Themes around determining the 2023-24 Calendar

- Develop a few 2023-24 calendar options with the exact days on/off so people can calibrate their understanding of what is possible.
- Ensuring that the process includes community and staff input
- Go for small changes in the 2023-24 year;
   avoid starting any earlier and go later into
