Ripple Effects Mapping Purpose

Identify intended and unintended results of a program for individuals, groups, or communities.

**“People move
in the direction
of the stories they
tell about themselves.”**

Small Group Storytelling

You'll be put into a group with other participants.

Once there, each of you will respond to a set of questions. The small groups will last 10 minutes, so divide the time up as equally as you can.

When we come back in the full group, you'll provide your answers to the questions to the full group. This time, we will take notes about your story. This will become the Ripple Effects Map.

When you get into your group, check the chat. There will be three questions there to guide your storytelling.

Questions to answer in Small Group Storytelling

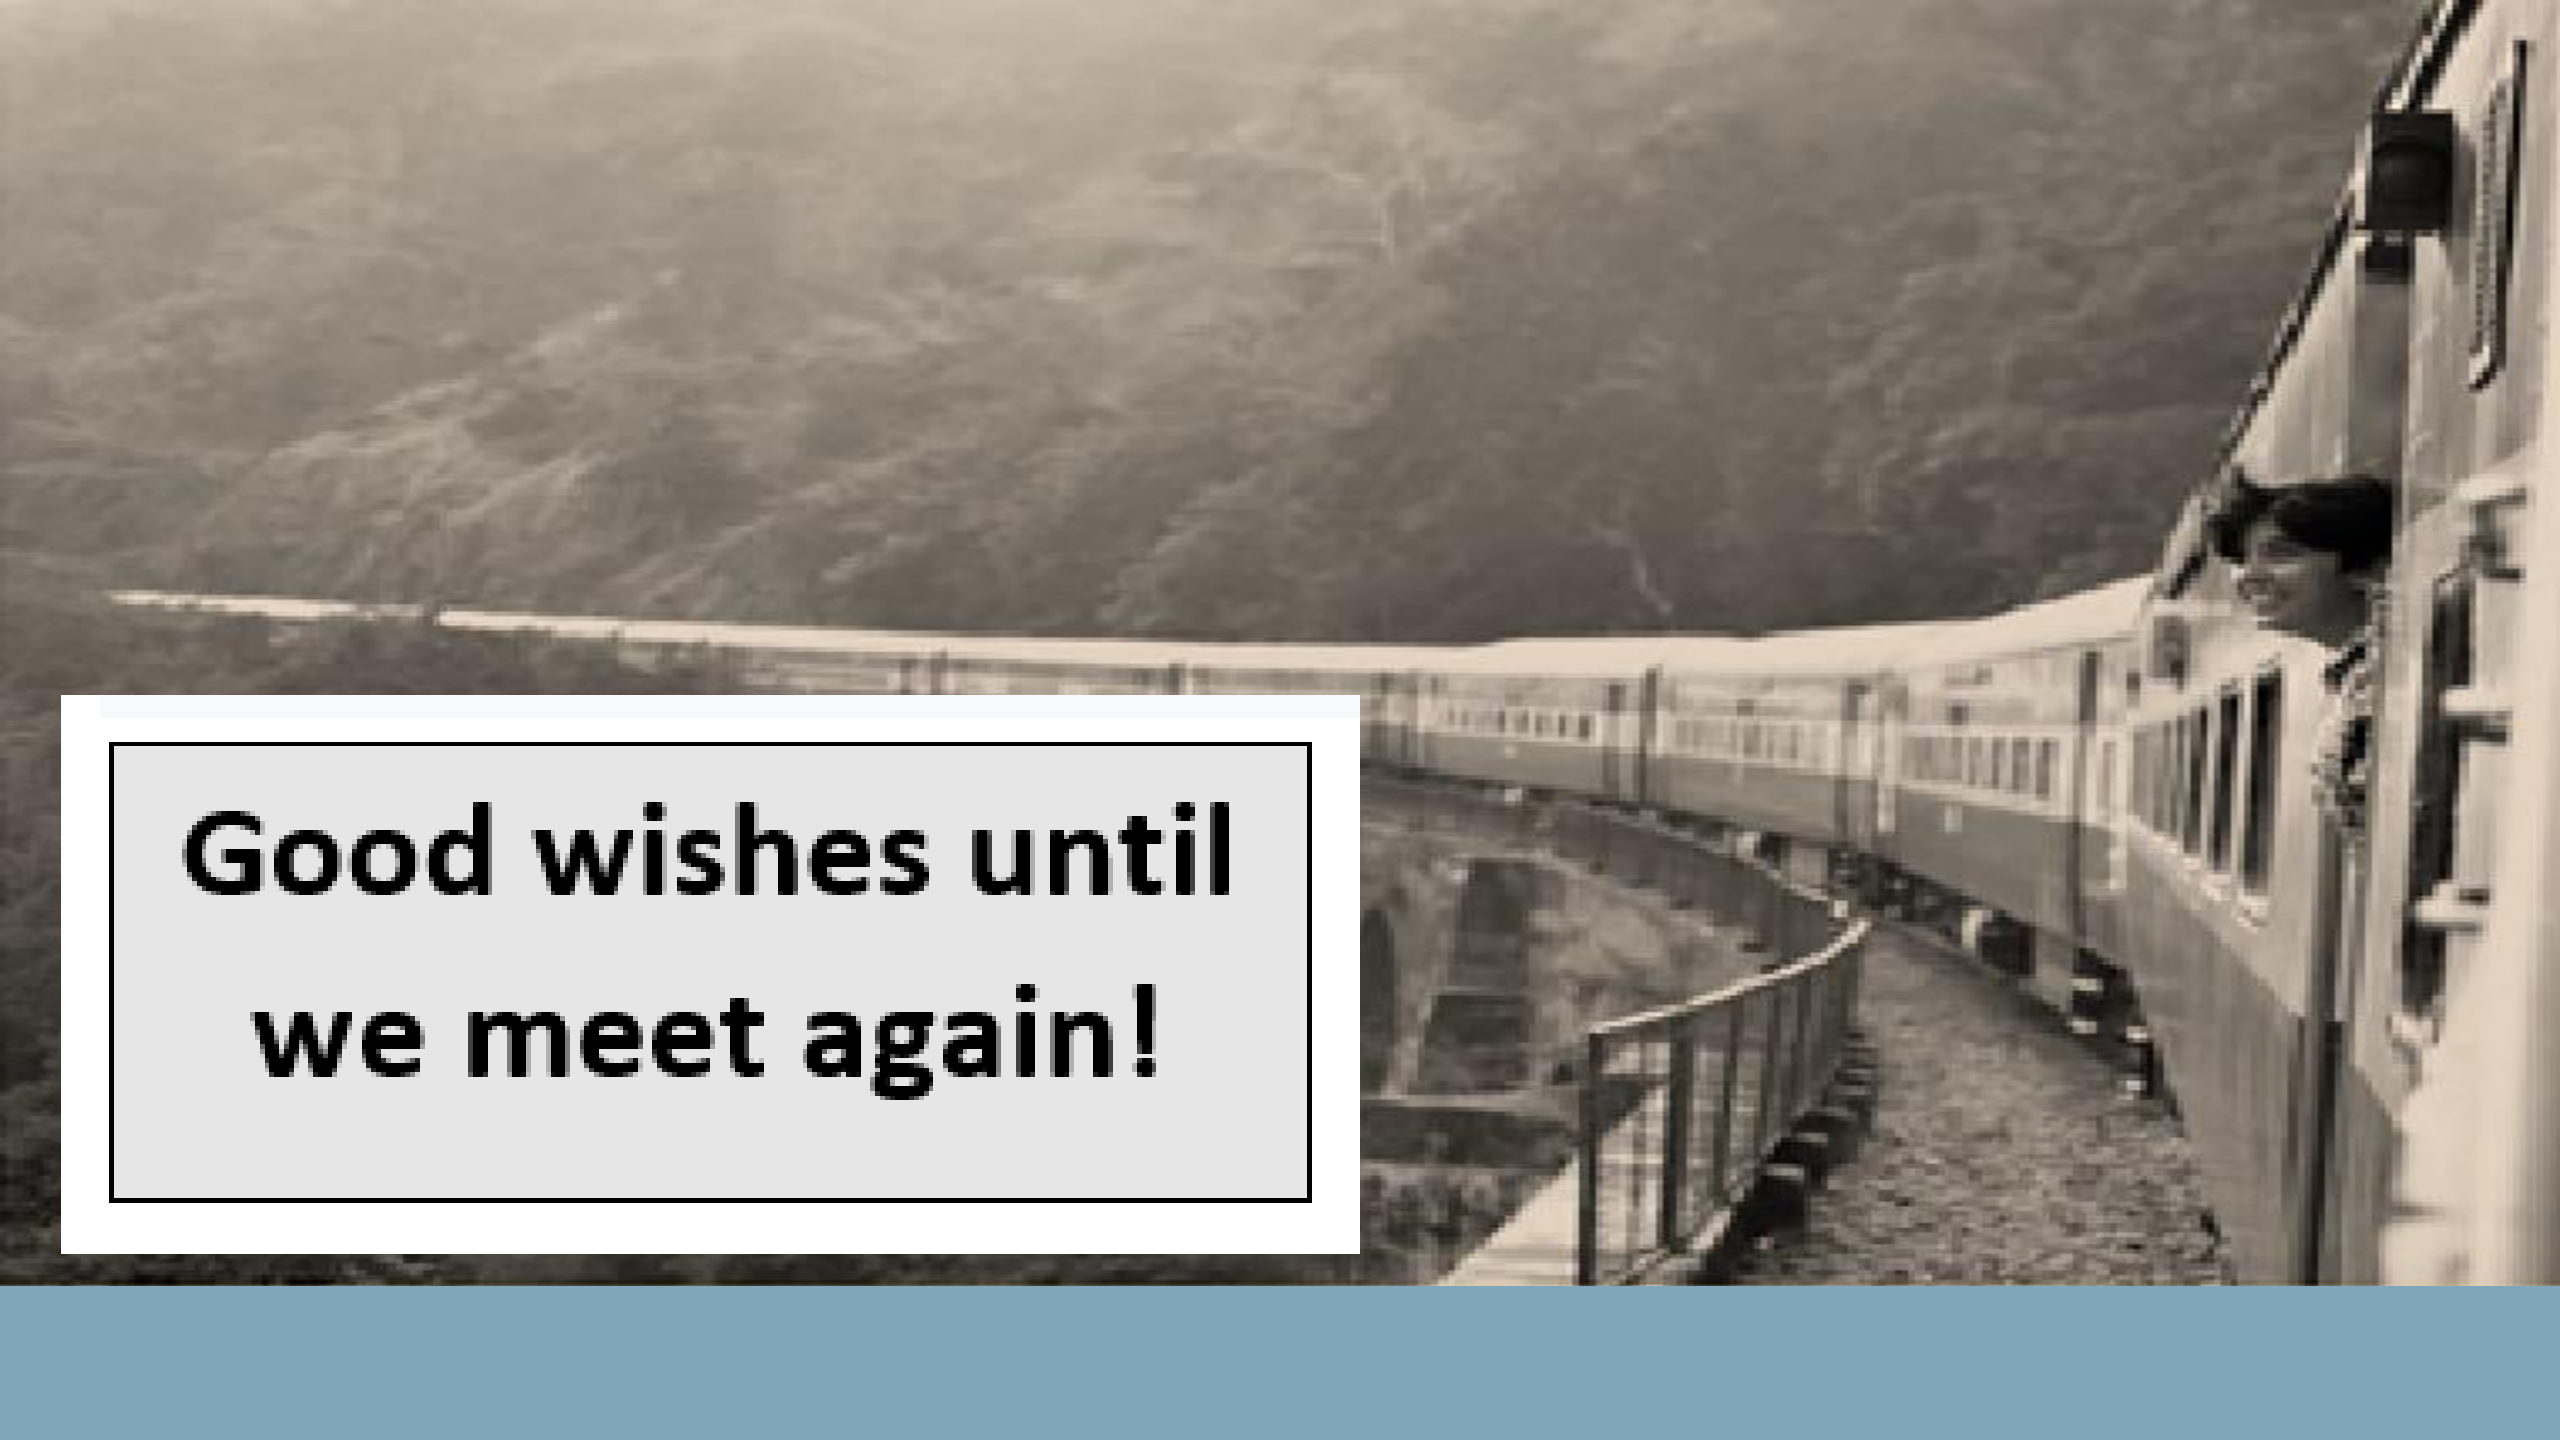

What do you see as the purpose for the South County Harm Reduction (SCHR)?

Please share about a conversation you have had about SCHR with people who are not part of the SCHR group?

What value has participating with SCHR brought to you professionally and/or personally?

What would you like the SCHR group to look like and do going forward?

What events or developments could strengthen what SCHR does?

A photograph of a train traveling through a mountainous landscape. The train is white and has multiple windows. A person is visible looking out from one of the windows. The background shows a vast, hazy mountain range. The text "Good wishes until we meet again!" is overlaid on the image in a white box with a black border.

**Good wishes until
we meet again!**
